This house, located on the east side of South Vermont Street is a one and a half story four bay duplex dating from the late 19th century. Probably of log construction, is is now covered with aluminum siding. Presumably, it was built as a duplex. It has modern single pane sash windows. Its entrances are located in the second and fourth bays from the northeast end. The roof is covered with sheet metal and there is a central brick chimney. The house appears to be in good condition.
